### **ARIZONA CITIZENS RISE-UP DEMAND A NEW MIDTERM ELECTION**

*Arizona citizens reject the midterm election process prior to the close of remaining races – proving the call for a transparent, analog redo of the election is independent of candidates, parties, or final results.*

**[Denver, Colorado November 15, 2022]** – Today, an open letter authored by “Arizona Citizens” addressed to Arizona election officials is being circulated through a variety of primarily online channels. The three part letter outlines the case to conduct a new election, how the Arizona citizens want the election to be conducted, dates, and most importantly what the state and the election officials can expect if the will of the people is not respected.

The tone of the demand letter is firm, clear, and peaceful. The first paragraph of the letter is a clear vote of no confidence in the current election process by calling out the incompetence of Arizona election officials and Secretary of State Katie Hobbes based on their track record of botched elections starting in 2020.

The second paragraph in the letter outlines the analog election process by which the Arizona citizens want the new election to be used. It’s a simplified voting process that mirrors how France conducts their elections. Most notably is the removal of mail-in ballots, and all electronic voting equipment. Essentially, Arizona citizens demand to return to how elections were conducted prior to universal mail-in ballots and electronic voting equipment.

The first-of-its-kind letter out of Arizona wraps with key dates where citizens expect a response by Arizona election officials. The first deadline is for election officials to agree to conduct a new, transparent midterm election. The second deadline for the state election officials is the date Arizona citizens expect the new election to take place.

Consequences of non-compliance are clear. Arizona can expect citizens to “peacefully descend” on the state, suggesting they will not leave until a legitimate election is conducted.

It’s expected that Arizona election officials will balk by citing rules and statutes to create a range of technicalities in order to create excuses for not being able to conduct a new election. Based on the letter, it appears that Arizona citizens will not accept anything but a new election.

Operational concerns like ADA voting laws and ballot printing are easily accommodated with the traditional voting plan. In the past, bi partisan election judges would go to the ADA voters and assist them with completing their ballots. Printing ballots has an easy solve considering ballots are already formatted and can be printed on-demand at voting centers. Voters receive ballots once they present valid voter i.d.

The message the Arizona voters have sent is that any “challenges” that arise with the new election can be addressed by referencing how elections have been legally, and transparently run in the past.

The letter sign-off includes a hashtag obviously designed for social media. As of the writing of this press release social media avatars are being changed to the Arizona state flag presumably showing solidarity for Arizona citizens and their call for a new election.

Below is a copy of the letter sent to USEIP.

----- Original Message -----  
On Tuesday, November 15th, 2022 at 8:46 AM,

**WE DEMAND A REAL MIDTERM ELECTION, IMMEDIATELY IN ARIZONA**

**Three Strikes Arizona Election Officials**  
The officials in Maricopa County are actively obstructing the will of Arizona voters. Between the ballot stuffing via “Drawer Three,” the 30% voting machine failures on Election Day, and unexplained extended ballot counting, the election in Arizona is not trustworthy.

Enough is enough. There is zero transparency, and Arizona citizens no longer trust officials to count our votes with fidelity. Secretary of State Katie Hobbs and county election officials in Arizona have a multi-year track record of incompetence and obstruction. Without transparency, the so-called results are illegitimate and uncountable.

We the People know something is wrong, and will not tolerate the way this election is being conducted. We the people of Arizona deserve better, and we demand better. We demand transparent, free, and fair state elections.

**Immediate Demands for Remedy**  
The People of Arizona immediately demand the following:

1. A Special Master assigned to oversee Arizona elections, removing Katie Hobbs, Bill Gates, and Steven Richer from election oversight.
2. Conduct a new election in Arizona on December 6, 2022:
  - a. In person voting.
  - b. Paper ballots.
  - c. Identification required.
  - d. Precinct level hand counting of ballots on December 6, 2022.
  - e. Ballots counted at the precinct to be sealed & transported by the county sheriff to a secure location.
  - f. Complete election process transparency.

Arizona citizens demand Arizona election officials agree to these terms by close of business on Thursday, November 17, 2022. If these demands for a new election are refused, Arizona citizens, joined by American citizens from across the country, will peacefully descend on Arizona until the new election is conducted.

Elections belong to the People. Conduct a #RealMidterm now.
